

Treatment of the Month

HEALING CHALK WRAP

Composed of healing chalk, medicinal clay and various essential oils, this body wrap has a particularly strengthening effect on the immune system and is especially suitable for sensitive and delicate skin.

Thanks to its low pH value, healing chalk helps to neutralise or lower the body's pH level and counteracts excessive acidity, which can be associated with rheumatic conditions.

The warmth of the waterbed additionally supports the absorption of the active ingredients.

Also suitable for sensitive skin.

Treatment time approx. 30 minutes

€ 42 (regular price € 48)

Valid from October 1st to October 31st, 2026
