

Treatment of the Month

Detox Body Wrap

An intensive algae wrap that has a strongly detoxifying and dehydrating (water-releasing) effect thanks to the mineral salts, trace elements, and iodine it contains.

During the 30 minutes spent in the water bed, the body detoxifies through the skin and the metabolism is stimulated. (This treatment is not recommended for people with thyroid disorders.)

To support the effect from within, a highly effective detox ampoule is administered following the treatment, further intensifying the detoxification process.

Treatment time approx. 30 minutes

€ 42 (regular price € 48)

Valid from September 1st to September 30th, 2026

In September, the body bids farewell to the summer months and prepares for the cold season. Take advantage of the detoxifying and dehydrating (water-releasing) effect to give your metabolism a fresh boost and start the autumn feeling refreshed and revitalized.
